MATTERS DISCUSSED AND AGREEMENTS	ACTIONS		
	Nº	Resp.	Date
Iberespacio has finished to manufacture and test the WAKE Radiator Heat Pipes and sent them to MIT and Carlo Gavazzi Space representatives. After the visual inspection of the Heat Pipes, all of them are accepted and the clients give their permission to starting with the packing. Two of these heat pipes (IEA 34/07 and IEA 34/07) are still in testing, but they will be finished along the day. All the documentation (Acceptance Data Package) has been reviewed and accepted by the client. Both parties agree that the Heat Pipes and the documentation are ACCEPTABLE and can be shipped to TAIWAN.
