SUBJECT: Temporary Storage Review – Case Files 5-002 and 6-001

The above temporary storage items have been reviewed and it has been determined by this office the Alpha Magnetic Spectrometer hardware needs to continue in storage. The AMS is an active international project, and a place of storage is needed as manufacturing and integration activities continue. This office requests a 12-month extension of the storage period.

It should be noted that item #6 of Case File Number 6-001 will be excessed as the project has determined that it no longer has a need for this piece of equipment. Documentation to excess the equipment is being prepared.
